TaskMap® Lite Release Notes
Version 3.2.4

Important Installation Note

Windows XP users: If you are asked whether to run the setup program as a user or as an administrator, run the TaskMap Lite setup program under your user account – do not provide an administrator username and password or TaskMap Lite may not run properly.

Prerequisites

TaskMap Lite requires either Windows XP or Windows Vista.

TaskMap Lite is an add-in product for Microsoft Visio and requires that Visio 2003 or Visio 2007 (either Standard or Professional edition) be installed before TaskMap can be installed.

TaskMap cannot be installed on a computer that already contains a copy of TaskMap Standard or TaskMap Professional.

- Sample process maps and other supporting materials are available to registered users of TaskMap Lite. You can register for FREE at http://www.TaskMapLite.com

Description

TaskMap® is patent pending technology from Harvard Computing Group, Inc. that is designed to meet the growing demand for a simple, affordable way to document and implement work processes. The resulting process maps, called TaskMaps, can be used to share process descriptions, procedures and knowledge across the organization using a common interface and language.

TaskMap Lite offers a subset of the capabilities found in TaskMap Standard and TaskMap Professional. Information about upgrades to Standard or Professional is available at http://www.TaskMapLite.com.

Known Limitations

1. Some TaskMap Standard and Professional features are visible but not accessible in TaskMap Lite.
2. TaskMaps created or edited in TaskMap Standard or TaskMap Professional cannot be opened in TaskMap Lite.
